

## **ENVIRONMENTAL REPORT FOR TRANS ALASKA PIPELINE SYSTEM RENEWAL**

© 2001 TRANS ALASKA PIPELINE SYSTEM OWNERS:

### **IMPORTANT NOTE**

The authors of this Environmental Report have made every effort to gather complete and accurate data for their analysis. Projections of future TAPS throughput and configuration, North Slope oil development, gas commercialization and tanker transportation are necessarily dependent on assumptions about oil and gas production, future technology, and the facilities and equipment needed. The authors' assumptions represent informed projections based on knowledge of current operations and are not meant to imply that these predictions completely and accurately reflect all future scenarios pertaining to TAPS, North Slope oil and gas development, or tanker transportation. Actual outcomes are dependant on many variables including the economics of oil and gas production, changing laws and regulations, and political realities, and may differ significantly from those predicted here.
